

PYRAMID MOUNTAIN LUMBER, INC
“The Stewardship Company”

Pyramid Mountain Lumber, Inc. (PML) supports the SFI® Program standard and its intent to manage sustainable forests which make vital contributions to society by providing economic, environmental and social benefits indispensable to the quality of life. Our commitment to sustainable forest management means protecting water quality, soil, wildlife and unique resources.

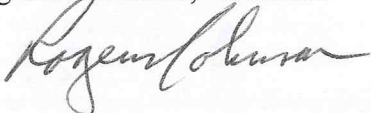

PML’s SFI Program is based on the premise that responsible environmental behavior and sound business decisions can co-exist to the benefit of communities, landowners, manufacturers, shareholders, customers and the environment, today and for future generations.

Pyramid believes forest landowners have an important stewardship responsibility and a commitment to society, and they recognize the importance of maintaining viable commercial, family forests, and the conservation of these forest land bases. They support sustainable forestry practices on forestland they manage. PML supports efforts to protect private property rights, and to help all private landowners managing their forestland sustainably. PML supports the principles outlined in the SFI standard and include:

- Use sustainable forest practices that are scientifically credible and economically, environmentally and socially responsible.
- Provide for regeneration after harvest.
- Maintain and improve long-term forest health and productivity.
- Protect and maintain long-term forest soil productivity.
- Protect water bodies and riparian zones.
- Protect special sites and biological diversity.
- Incorporate aesthetic considerations into activities where visual impacts are a concern.
- Conserve critical wildlife habitat; protect wildlife species that are Threatened, Endangered, Imperiled or Critically Imperiled.
- Manage lands of special significance (biologically, geologically, historically or culturally) in a manner appropriate for their unique features.

Pyramid Mountain Lumber, Inc. is committed to economically and environmentally responsible sustainable forestry practices. The second and third generation owners are not only committed to sustainable forestry, but are striving to continuously improve harvest practices further protecting Montana’s timber, wildlife, air, soil and water resources. They believe active forest management can create healthy forests and improve other resource values. Society benefits include enhanced recreational opportunities and affordable, high quality forest products. Pyramid Mountain Lumber, Inc owners are committed to the 2010 – 2014 Sustainable Forestry Initiative Standards.
